## EDUCATION

### Bachelor of Technology in Computer Science and Engineering

Devang Patel Institute of Advance Technology and Research (CHARUSAT)

CGPA : 9.55 2021 - 2025

### Higher Secondary Education (GSEB)

Shree Brilliant High School

Percentage : 91.23 % 2020 - 2021

## WORK EXPERIENCE

### UI/UX Designer Intern

2024 - Present

#### Trionic Technologies LLP

- Gained valuable exposure to real-world projects. Utilizing Figma software for creating wireframes, prototypes, and UI designs for web/mobile apps, assisted in their creation.
- Applied design skills and collaborated closely with experienced professionals. Developed design documentation and style guides and Stayed updated on UI/UX design trends.

### Web Developer Intern

May 2023 - June 2023

#### Miracle Technolabs

- Enhanced skills in HTML, CSS, JavaScript, React.js, and Node.js. Contributed to MongoDB projects, improving database management.
- Developed front-end and QA practices, gained insights into software complexities, and teamwork skills.

## PROJECTS

### Sign language Detection

Machine Learning | Python | MediaPipe | React | Firebase

The project involved developing a web application using React.js and Redux for the frontend, integrating a machine learning model for sign language detection, and utilizing Firebase for data management and user-friendly interfaces.

Technologies Used : ReactJs, Redux

Database : Firebase

### TOTD (Thought Of The Day)

MERN Stack ( MongoDB, Express.js, React.js, Node.js )

This project aims to develop a social networking web app that enables users to publish microblogs that last for 24 hours only. Users can create accounts, post tweets, follow , like, and interact with others.

Technologies Used : ReactJs, NodeJs, ExpressJs

Database : MongoDB

### E-Commerce Website

HTML | CSS | Javascript | ReactJs

The project aims to create a user-friendly e-commerce website using HTML, CSS, and JavaScript, allowing users to browse products, add items, and contact for purchase, while also showing product details.

## SKILLS

### TECHNICAL SKILLS :

JAVA | Python | Machine Learning  
HTML | CSS | Javascript | Reactjs  
Nodejs | Figma | UI/UX Design  
Canva

### INTRAPERSONAL SKILLS :

Leadership & Public Relations  
Project Management  
Team Management  
Presentation & Communication,  
Design and Creativity  
Problem Solving

## ACHIEVEMENTS

- Student Representative as Central Council Member at Executive Central Council (ECC), CHARUSAT.
- Training and Placement Student Coordinator at Placement Cell at CHARUSAT.
- Letter of Appreciation for Outstanding Contribution to COGNIZANCE'24.

## CERTIFICATION (20+)

- GOOGLE UX Design (Coursera)
- Frontend Developer (React) (HackerRank)
- Introduction to Front-End Development (Coursera)
- React.js Essentials Bootcamp (Lets Upgrade)
- Mern Stack (Mindluster)
- React (Basic) (HackerRank)
- JavaScript (Intermediate) (HackerRank)
- CSS (Basic) (HackerRank)
